# MUSIC MINISTRY

Worshipping the Lord through music in Spirit & Truth

## **“... Buy a Keyboard”**

*“For What, I Can’t Play?”*

Called To Play the Keyboard and Write Gospel Music

One day in mid May 1998 as I swept the living room floor in the house on Lawson Street in Mac Dougald Terrace of Durham North Carolina, I heard the voice of the Lord speak and said unto me, “go buy a keyboard.” I thought to myself, “buy a keyboard, for what, I can’t play one? As I thought on the word of the Lord, and having a willingness to obey the voice of the Lord, I said, “Alright, I’ll buy one... of course I said, “I don’t know why, I can’t play it.”

Nevertheless as time passed, actually several weeks went by and it was on me to stop by the Guitar Center at North Gate Mall when the kids, Linda and I were out shopping. We looked at all the different musical instruments and equipment, and I felt right at home, as if I was supposed to have their. Well, to make a long story short, after playing around with several keyboards, I found a Casio I considered would be nice to play with, knowing I could not play it, but I thought it would be nice to play with it. Therefore, I took it home, stood the box with the keyboard in it up in the corner of the dining room, and left it there.

A few weeks passed, I again was sweeping the floor near the keyboard, and I heard a voice say, “Take the keyboard out the box and sit down and play it.”

“...Play it?” So, I unpackaged it, set it up on the stand, sat down, cut it on and as I placed my fingers towards the keys, I had no control of them, it was as if something had taken over my hands and I was actually play music I had never heard nor did I know how to play!

The Lord has assured me of some graceful promises concerning the music He has installed in me, and as sure as His word cannot lie, they too shall come to pass. If you believe in His word, and love Him, then all things are possible and nothing is too hard for the LORD OUR GOD!
